

Tow Tanks: TT 2,000

SELF BUNDED (DOUBLE WALL), REGISTERED

Containerised Fully Bundled (Double Wall)

Storage and Dispensing of Diesel, Lubricants, Kerosene, Petrol & Waste Oil

Culus Listed, tested to UL requirements

Low Profile Trailers

This innovative self bundled trailer range meets the requirements of the Mining, Civil Construction, Hire Industry and General Industrial Markets. A low profile, low centre of gravity, aerodynamic style trailer to deliver a smooth, safe towing experience..

Safer Fuel Cells

- True self bundled, tank in tank design. The inner tank can be removed from the outer tank for long term testing, cleaning and maintenance.
- Tank module can be removed for maintenance.
- Bunded Lockable Pump Bay Housing.
- Tank fueling area features mechanical level gauge, numerous spare ports for connection of support equipment, anti static fill tube and weatherproof recessed housing.

Adaptable Fuel Cells

Meets requirements for towing of fuel in accordance with Australia Dangerous Goods Transport regulations. For hire company applications or stationary equipment connection requirements (such as generators, lighting towers, pumps etc). We provide 2 x suction connection (with foot valves) points and 2 x return connection points located at the rear of the trailer for simple / quick connection to site equipment.

Models
